Start your visit to the Scheldt Valley in one of the great castles

Between Ghent and Antwerp, a number of unique castles watch over the Scheldt. The castles are the gateway to the river nature surrounding them. Behind their sturdy walls are fascinating stories about a glorious past. Here, in the midst of a beautiful green setting, you can relive the rich history of the Scheldt Valley and its inhabitants.

MARNIX DE SAINTE ALDEGONDE CASTLE (BORNEM)

At Bornem Castle, it feels like Disney has worked its magic but that is not all! This historical gem also houses an impressive collection of Bruegel prints and an exhibition full of beautiful, old carriages waiting to be discovered.

D'URSEL CASTLE (HINGENE)

As well as the fairy-tale castle of Bornem, there is also the magnificent, ochre-coloured d'Ursel Castle in Hingene. This majestic building is a real eye-catcher with walkways that take you past stunning water features and along grand, historic avenues. The castle regularly opens its doors for special events and exhibitions, offering visitors a unique chance to view this historical gem.

LAARNE CASTLE (LAARNE)

Step inside Laarne Castle and travel back in time. Laarne Castle is a beautifully preserved, medieval moated castle dating back to the 13th century. Although the inhabitants are long gone, their stories linger in the walls of this ancient castle. Behind the striking facade, a grim past is concealed: in the early 1600s, the six notorious Laarne witch trials took place here.

WISSEKERKE CASTLE (BAZEL)

Wissekerke castle is one of the first neo-Gothic castles in Belgium. Today, it is one big time machine with imaginative projections, three different audio stories, fascinating objects, touch screens, a digital quiz and soundscapes.

SUP AROUND THE DURME

Stand Up Paddling (SUP) is all the rage, and for good reason. If you stand upright, you have a great overview of everything happening on the banks - at least, if you can keep your balance...

Tiny Tip

THE LITTLE FERRY BOATS!

No better way to discover Scheldt Valley National Park than on the water. The ferries are a lovely break during your walking and cycling exploration. All year round, the ferryman ferries across the river at no charge! And your bike? Don't forget to take it with you on board.

Spot waterbirds in —the Kalkense Meersen

If you want to experience once more what total peace feels like, you should go walking in the **Kalkense Meersen**. Here, with the Scheldt River in the background, the water is constantly playing games with the land. The Sigma plans have something to do with this. These provide additional water buffers in the event of floods. This area, too, was handed back to nature, which now has free reign in the vast fields.

But the Kalkense Meersen are more than just controlled floodplains. It is where many thousands of meadow birds come to seek refuge away from the inhabited world. Each corner of the wetlands has its own inhabitants. The shallow ditches and water features provide nesting opportunities for a variety of waterfowl, such as the shoveler and the rare garganey. In the reedbeds, you may spot the proud bluethroat or hear the busy song of the reed warbler. In the flowery hay meadows, the reed bunting, stonechat and even the endangered whinchat have returned to nest. The common redstart and the little owl feel at home in the numerous pollard willows.

TASTE THE NATURE

Taste the different flavours that the Scheldt Valley has to offer. The unique landscape of the Scheldt Valley is greatly enjoyed: as a walker who enjoys the peace and quiet, as a jogger on the dyke, as a hunter in the fields, as a nature lover, as a tourist on a terrace, as a restaurateur working with regional products, ...

This is why the Scheldt Valley embraces short-chain agriculture. Products purchased directly from farmers have a great added value: they are super fresh and super tasty, the farmer receives a fair price for them and there is less strain on the environment because of the saving in packaging and food miles. so, advantages all around!

Here are a few ideas:

- **Self-picking farm GRONDIG (Destelbergen):**
Pick your own strawberries, raspberries, red currants, gooseberries, black currants and blackberries and visit pigs Teddy & Marieke.
- **Jersey breeder Pedro De Gelder (Uitbergen):**
Here, the rich milk from the jersey cows is made into butter, cheese, yoghurt, cottage cheese, ice cream, rice pudding and custard. You can find their products in the farm shop.

— Viticulture

Wine from East Flanders! Yes, that's right! White, red, sparkling, rosé ... over the past decade, viticulture in East Flanders has grown exponentially, from 6 to almost 40 wine estates. Growth has been accompanied by a strong professionalisation within the sector. You can taste that! The accumulated knowledge and experience of the winemakers has lead to an ever-improving wine quality.

Check out the [East Flanders wine list](#) and go exploring!

HEILIG HART BREWERY

A brewery in a church: that is not very common. The Heilig Hart Brewery brews in the name of the Father, the Son and the Holy Spirit. The Father stands for the classic Belgian beers, including a saison, a double and a triple. The Son is all about experimentation: smaller and one-off brews based on their own hop varieties, planted in the church's garden, and a selection of forgotten herbs such as yarrow, lovage, skirret or wild garlic. And the brews in the name of the Holy Spirit - or yeast - come from the cooling vessel in the church, where the beers can ferment spontaneously with the natural yeasts in the environment. Certainly worth a visit!
